

BLACK HISTORY MONTH

A strong and successful workforce depends on the labor of its employees of all backgrounds and skill sets. In celebration of Black History Month this February, Hill recognizes how the work of African Americans has shaped the course of American history and has contributed to the prosperity of our company, allowing us to carry out our mission of service to the nation.

The official theme for 2025 is "African Americans and Labor." Learn more by visiting the [Association for the Study of African American Life and History](#).
